

Paul Dick
A and K Metal Roofing

12 April 2012

Reference

To Whom It May Concern:

A and K Metal roofing has been our preferred roofing contractor for the past 6 years.

They are a team of likeable and friendly tradesmen who never complain. They are even happy to assist in works outside of their regular scope.

In addition to their positive attitude, their work quality is exceptional. They are one of the few trades that rarely have defects. On the few occasions that items need rectifying they attend to these immediately. They also are proactive in their ability to suggest solutions to difficult details that may have been overlooked by us.

A and K Metal Roofing understand that they are an important part in the work programs, for builders, and never delay our projects. They turn up to site when required and do their work in a timely manner. They always clean up after them selves.

A and K Metal Roofing provide us with detailed written fixed price quotes and do not look for variations during the projects. In fact there have been times when extra works were performed and they did not charge us extra.

I would not hesitate to recommend A and K Metal roofing.

Regards

David Lombardo
Director
North Residential Constructions
